Key

T1: Tier 1 treatments. Complex treatments requiring more time.

T2: Tier 2 treatments. Generally straightforward treatment.

Lite: Invisalign or braces designed for short treatment duration to align the front teeth.

Standard: Comprehensive orthodontic treatment of top and bottom teeth to meet your needs. Basic retention included (Standard wire and standard plastic retainer).

Premium: Comprehensive treatment with upgrade to Memotain™ wire retainers and Vivera™ retainers and tooth whitening. The highest level of orthodontic treatment and aftercare available.

Dental Monitoring: Less visits to the clinic with closer supervision of treatment via the phone app.

Standard wire retainer: Retainer wire on a reel that is trimmed to size for 'best fit'.

Memotain™ wire retainer: Bespoke, German-made, CAD-CAM designed retainer wire, laser etched for best possible fit, comfort and retention.

Standard plastic retainer: Manufactured by local technician. Should last around 12 months if cared for. One set as standard.

Vivera™ plastic retainer: Invisalign's removable retainers that last longer than standard retainers and come in sets of three.

Ceramic brace: A fixed brace made of white ceramic to improve aesthetics

Whitening: Overnight tooth whitening.
